

GTF 640 PVC HOLOGRAPHIC

Product	Self-adhesive film with hologram effect on flat and light structured surfaces. Monomeric glossy pvc.
Dimensions	mm1270x50m
Product description	If you are looking for the certain something - a real eyecatcher - you can use this self-adhesive film with the shiny hologram-effect. This film is usable as a decoration film but also as printable media for your hologram image. Printing with solvent and eco-solvent inks supports this glossy effect.

TECHNICAL DATA

	Unit of measure	Medium value	Norms
Thickness	µm	100	ISO-4593
Adhesive	Solvent polyacrylate, permanent, clear		
Adhesive power		13N/25mm	
Weight	g/sqm	280	
Release paper		Sinle PE, 120 gr	
Application temperature	°C	>10	
	°F	>50	
Outdoor durability		12 months	
Temperature	°C	-10/+70	
Resistance	°F	14/158	
Printability	Solvent/eco-solvent/ uv-cured/ uv-gel		
Shelf life / storage conditions	12 months in original packaging 18°C /25°C 64°F- 77 °F 40-60 % relative humidity
